**Subject:** RE: Request for F&T model code - Portland Harbor  
**Date:** 09/24/2006 02:00 PM

---

Carl,  
Right now I'm spending what time I have for Portland Harbor working with the stormwater team. I think it's really up to EPA to make the call regarding your request. Whatever they decide but I'd like the chance to bring EPA's contractor up to speed before sending out the code. And it would be good to have some configuration control plan in place first too, so we don't have the supposedly same model going in different directions.  
Bruce

Subject: Request for F&T model code - Portland Harbor

Bruce -

I just left you a voicemail. Do to agency delays in staffing this effort, it would be very useful if we could obtain the code for the Portland Harbor model you developed. Our idea is to fully understand the nuts and bolts so that we can hit the ground ready when the government team is ready. I am not sure how big the files are, but if they are not emailable, we can arrange to have you place them on our ftp site. Thanks for your time in this matter.

Carl
